

## Python Developer

### Company Profile:

[Samhita](#) collaborates with companies to develop impactful corporate social responsibility (CSR) initiatives. We shape strategies, design programs, facilitate implementation, and assess the impact of projects. We also work with foundations and donor agencies to bring multiple stakeholders together to address critical social issues collectively and on a large scale.

Our core technology platform, [Samhita GoodCSR](#), revolutionizes the execution and monitoring of social sector projects. GoodCSR has been developed in collaboration with [Collective Good Foundation](#) (CGF) and is supported by the Bill & Melinda Gates Foundation and the Tata Trusts.

We also work closely with CGF to provide comprehensive project management solutions in sectors such as healthcare, education, Water, Sanitation & Hygiene (WASH), and women's empowerment.

### Job Description:

1. In-house development of new web applications and new features for the existing platform ([www.goodcsr.in](http://www.goodcsr.in))
2. Fix the defects that arise from time to time
3. Understand technology requirements to develop new functionality for the platform
4. Understand business requirements and make technology interventions to improve the user experience.
5. Work with graphic designer to convert design/PSDs into front end
6. Ensure quality of deliveries received from 3rd party vendors

### Skills required:

1. Object Oriented Programming Concepts - required
2. Python and Django experience - required
3. Operating systems Linux/Unix/AWS experience preferred
4. Front-end technologies JavaScript, HTML and React desirable
